DEFINING YOUR
authentic style
DOORS & FINISHES
You’ve contemplated this investment, and now you’re ready for a personalized space that reflects your taste and lifestyle. A unique place where beauty balances intelligent design. It’s with this in mind that Decorá offers one of the most extensive arrays of door styles, embellishments and finishes available.
Our Midwest sensibilities come through in the sturdiness of our construction and the unparalleled quality of our cabinetry. But our finish palettes span the globe with broad, beautiful colors representing an entire spectrum of wood tones, glazes and brushed finishes. Our comprehensive paint program offers 30 preselected fail-safe choices, 2000+ Sherwin Williams® paints, and in our quest to maximize personalization, a custom color program.

Mindful of your investment dollar, Decorá is not about fads or flash-in-the-pan trends. Our style sights are set on the long term appeal, quality and performance that your discriminating taste prefers.

Selecting a finish is the second step in this creative process. Finish can mean a traditional wood stain with or without glaze, more colorful semi-translucent stain and glaze combinations, or opaque paints with or without glaze. When layered over various wood types, the color variety is broad and chock full of possibility. Talk with your Decorà designer to understand how wood grain affects color, and peruse our pages and website for color inspiration.

Although neutrals continue to be in favor, especially for products like cabinets where we look for style longevity, the definition is evolving thanks to renewed consumer confidence and the desire to express personal style. Like a clean slate, painted cabinets in tints of white, fresh and bright, hold their spot as the most coveted finish. Complex grays, now turning toward khaki, are also highly sought after, especially in the context of modern, rustic flavor. The handsome strength of earthy, cool browns ground us to nature. Equally comfortable, soothing tones of blue ranging from sky to sea to midnight, are easy and relaxed - the perfect backdrop for our busy lives. Pops of accent color, shown here on the bookcase, as well as a combination of neutral finishes within a room, continue to be stylish yet safe ways to add personal flavor.

Choose to add Black, Coffee, Espresso, Gunmetal, Pewter or Twilight glaze or layer Brushed Onyx, Brushed Pavestone or Brushed Saddle finish on Maple for maximum color interest.
Glazing Options and Brushed Finishes

Color Evolution:

Highlights of Options for Opaques

Gunmetal, Pewter, Twilight, Coffee and Espresso Highlights are available on all Color Collection finishes on Maple only. Black is available on all Color Collection finishes, except for Jet.

When maple opaque finishes are ordered, the door center panel will be constructed of Medium Density Fiberboard (MDF), except when distressing (Reserve and Reserve Plus, Vintage and Vintage Plus), and Sweet Pea or Jet colors are specified. MDF provides a smoother finish when painted, and is more resistant to warping, expansion, and contraction. Not available on Marquis.

Brushed Finishes

Brushed Onyx, Brushed Pavestone, and Brushed Saddle: three hand-applied, luxuriously translucent finishes to layer over any Maple paint. Choose to pair them with paints in our Color Collection, the entire Sherwin-Williams® palette, or any custom color under the sun, for a completely personalized look that accentuates the fine craftsmanship found in every Decorá cabinet.
True personalization is the result of unique choices. Decorá offers the ultimate in authenticity with two finish techniques featuring four levels of time-worn sophistication.

**Reserve & Reserve Plus**

Reserve’s light distressing uses wormholes, tiny dents and light signs of wear. Reserve Plus adds more aggressive techniques like rasping and splits, artfully blended for a beautifully aged look.

- **Wormholes**
- **Dents**
- **Rasping**
- **Mars & Splits**

**Vintage & Vintage Plus**

Vintage is a light sand-through to create a subtle, time-worn look. Vintage Plus is an aggressively burnished sand-through technique applied to corners and raised profiles, exposing the underlying wood.

- **Light Sand-Through**
- **Aggressive Sand-Through**
